

STACKIQ

AI - NATIVE SAAS SPEND INTELLIGENCE

StackIQ Partner Program

Visibility intelligence for enterprise AI and SaaS ecosystems — built by Solutioneers. StackIQ uncovers redundant applications, overlapping features, and hidden inefficiencies across complex technology stacks. We partner with RevOps consultants, digital transformation specialists, and implementation experts to deliver intelligence-driven optimization.

Why Partner with StackIQ

Expand Your Offering

Add enterprise-grade visibility intelligence and data-backed recommendations to your consulting practice

High-Intent Leads

Access companies actively identifying optimization needs and ready to modernize their tech stack

Collaborative Revenue

Partner on implementation projects or earn referral fees from engagements you deliver or refer

Partnership Models

Implementation Partners

Support clients in executing consolidations, migrations, and cost optimization based on StackIQ insights

Referral Partners

Introduce clients to StackIQ and earn a percentage of resulting engagements with minimal involvement

The StackIQ Advantage

Instant Visibility

Automated tech stack scans provide immediate insight into applications, usage patterns, and optimization opportunities

Enterprise Security

SOC 2 Type II and ISO 27001 certified with enterprise-grade data protection

Seamless Integration

Connects with HRIS, SSO, ERP, and CLM systems for comprehensive visibility without disruption

Ideal Partners

Built for RevOps consultants, digital transformation firms, and system optimization specialists working with mid-market and enterprise clients managing complex technology ecosystems.
